# Presentation of the achievements in implementing the Policy Mix Peer Review Recommendations

Conference: Associated to Horizon 2020: what's next?  
'From association to impact generation'

November 7, 2016

Tbilisi

Manana Mikaberidze  
Shota Rustaveli National Science Foundation

# Outline of Presentation

1. Background information on PMPRD
2. Major Conclusions & Recommendations
3. Activities undertaken by MoES, SRNSF & other Stakeholders: Progress Report on Implementation of Particular Recommendations
4. Major Challenges- What's Next?

#29806537

# Utilizing Results & Uptake

- Public Presentation of Report by peers and hosts
- Spreading PMPRD among stakeholders and scientific community
- Dialogue with major stakeholders-broader discussions on particular topics
- Planning: what should be done on institutional level, on Governmental level?
- Monitoring of progress.

# Major Sections of PMPRD Recommendations

1. Georgia's STI system as a whole
2. Funding of STI
3. Integration of Research and Education
4. Innovation & Business Sector
5. Human Resources Development
6. International Cooperation & HORIZON2020 Association

# Major Findings & Conclusions

- The STI system should not be considered to be in a transition period anymore: there is a need to look forward, to develop a **vision and a strategy** that will consolidate and gradually strengthen the **STI system as an integral element for a knowledge based society and for sustainable growth of the country**.
- A **broader consultation process** involving policy makers, the academic and research communities but also the business sector and the civil society, will largely contribute to the **identification of the most suitable policies** and instruments but also to the acceptance and efficient implementation of them.
- By **reducing the fragmentation, removing barriers and improving the planning**, a considerable jump forward could be observed in the system's performance.
- Certainly, and despite recent initiatives, an **increase in the level of funding for STI** is necessary. However, such increase in the funding should **be mainly oriented to carefully selected priorities** where either **strong research capabilities** or promising **economic potential** exist.
- The ongoing process of Association of Georgia to the EU's Framework Programme 'Horizon 2020' renders **the introduction of substantial changes in the STI system** urgently necessary, in order to fully **benefit from the advantages** that such an Association can bring.

# TENTATIVE IMPLEMENTATION ROADMAP (1)

Recommendations		Primary Stakeholders to uptake the recommendations							
		Ministry of Edu & Sc.	RIC	Comm. for Ed., Sc. & Culture	SRNSF	GITA	NAS & NAAS	Research Community	Private Sector
	Implementation suitable/feasible at <b>Short-term</b>								
STI System	1. Development of a consultation process to define a clear and documented Vision specifically for the STI sector	✓	✓	✓					
	2. A well-defined Strategy coherent to the Vision needs to be elaborated and adopted	✓	✓	✓					
	3. Consolidate and further strengthen the role of the RIC	✓		✓					
	5. Define the role of the policy delivery organisations (SRNSF, GITA)	✓	✓						
	9. Widely promote important STI policy initiatives in the public	✓			✓	✓			
	11. Highlight/Showcase the short term impacts of a dynamic STI system	✓			✓	✓			
Univ. / Res. Centers	23. Further improve the Accreditation process for the universities	✓	✓	✓				✓	
	26. To acknowledge the new landscape of the research system	✓	✓					✓	
	33. Organise the implementation of the assessment of the existing STI providing organisations	✓	✓		✓		✓	✓	

# TENTATIVE IMPLEMENTATION ROADMAP (2)

Recommendations		Primary Stakeholders to uptake the recommendations							
		Ministry of Edu & Sc.	RIC	Comm. for Ed., Sc. & Culture	SRNSF	GITA	NAS & NAAS	Research Community	Private Sector
Inno & Business	35. Involving business sector representatives in Advisory boards of Universities and research centres.	✓	✓					✓	✓
Int. Coop. & H2020	47. Develop a coherent international cooperation strategy in line with the country's vision and strategy	✓			✓	✓		✓	
	49. Devote a particular attention in the cooperation with the national diaspora	✓			✓			✓	
	50. Development of a Plan of Action dedicated to the Association to H2020 with realistic expectations and goals	✓	✓		✓	✓			
	51. Strengthening of the NCP system in the country in order to cure current weaknesses	✓			✓				
	52. Promote the participation of Georgian researchers in COST Actions	✓			✓			✓	
	53. Actively participate in Support Actions that stimulate the exchange of good practices and networking	✓			✓	✓			
Implementation suitable/feasible at <b>Medium-term</b>									
STI System	4. Improve the visibility of the RIC in terms of its disposition, the principles of transparency and information	✓	✓						
	6. Develop sound monitoring processes on financial issues, results/outputs and impact	✓			✓	✓			
	7. Define research fields where currently strong research capacity exists	✓			✓	✓		✓	

# TENTATIVE IMPLEMENTATION ROADMAP (3)

Recommendations		Primary Stakeholders to uptake the recommendations							
		Ministry of Edu & Sc.	RIC	Comm. for Ed., Sc. & Culture	SRNSF	GITA	NAS & NAAS	Research Community	Private Sector
STISystem	8. Identify research fields centered around promising economic fields (niches) in the country	✓			✓	✓		✓	✓
	10. Promote an open dialogue and a broad involvement of stakeholders in all the STI related activities	✓	✓	✓					
	12. Develop low cost initiatives that could contribute to the positive disposition of the society towards the STI sector	✓			✓	✓		✓	
	22. An active participation in the H2020 processes should aim at the promotion of the national priorities in STI	✓			✓				
STIFunding	13. Significant increase of the national expenditure for STI	✓	✓	✓	✓	✓			
	14. Increase both the core and the competitive funding through grants	✓	✓		✓	✓			
	15. Gradually introduce monitoring and evaluation (assessment) systems	✓	✓		✓		✓	✓	
	16. Develop an additional grant scheme with dedicated budget as part of the national vision and strategy to increase the STI funding level	✓	✓		✓	✓			
	17. Introduce multiannual planning for the STI grants	✓	✓	✓	✓	✓			
	18. Provide incentives to the private sector for investments in STI	✓	✓	✓	✓	✓			✓
	19. Stimulate and activate financial contributions of the private sector for the realization of applied and innovation projects	✓	✓			✓			✓
Univ./ Res. Centers	24. Secure an adequate level of core funding	✓	✓	✓	✓				
	27. Re-confirm and re-equilibrate the status of researcher and of mainly teaching university professors	✓	✓	✓					

# TENTATIVE IMPLEMENTATION ROADMAP (4)

Recommendations		Primary Stakeholders to uptake the recommendations							
		Ministry of Edu & Sc.	RIC	Comm. for Ed., Sc. & Culture	SRNSF	GITA	NAS & NAAS	Research Community	Private Sector
Univ. / Res. Centers	28. Promote the osmosis (permeability) between higher education and research spheres	✓	✓						
	29. Massively 'irrigate' the research centres with students	✓			✓			✓	
	31. Present successful practices of "role models" organizations				✓			✓	
	32. Encourage the participation of most successful research centres ('role models') to mutual learning exercises such as international benchmarking				✓			✓	
Inno & Business	34. Define priority research fields that have a positive impact on dynamic economic sectors of the country	✓			✓	✓		✓	✓
	37. Development of dedicated support structures to facilitate the utilization of research results	✓			✓	✓			✓
	38. Stimulation of the research demand through incentives to the business sector (tax reductions; bank loans; etc.).	✓	✓	✓		✓			✓
Human Res. in STI	41. Encouragement of the engagement of young researchers in public grants as an obligation	✓			✓				
	43. Introduce the research activities in the university professor's assignments	✓	✓					✓	
	44. Research activities as a criterion in the context of the Accreditation process for the universities, as well as in the Evaluation of university performance	✓	✓					✓	
	45. Removal of all the legal and administrative barriers that still exist for the free staff circulation between universities and the formally integrated research institutes	✓	✓	✓	✓			✓	
	46. Gradually further equilibrate the salaries between researchers and teaching professors	✓	✓	✓					

# TENTATIVE IMPLEMENTATION ROADMAP (5)

Recommendations		Primary Stakeholders to uptake the recommendations							
		Ministry of Edu & Sc.	RIC	Comm. for Ed., Sc. & Culture	SRNSF	GITA	NAS & NAAS	Research Community	Private Sector
Int. Coop. & H2020	48. Support the development of internationalization strategies by the existing research entities	✓			✓			✓	
Implementation suitable/feasible at <b>Long Term</b>									
STI Funding	20. Facilitation of collaborative research schemes and PPPs	✓	✓	✓	✓	✓			✓
	21. Proactively intervene towards the donors for the identification of the optimal funding instruments and of the priority actions to support	✓			✓	✓			
Univ./ Res. Centers	25. Improve the alignment of the study programmes with the local economic sectors' demand	✓	✓					✓	✓
	30. Promote interdisciplinary approaches in both higher education and research	✓			✓			✓	
Inno & Business	36. Promotion of the use of developed new knowledge in the economic sector through licensing, patenting, etc.	✓			✓	✓			
	39. Invest in parallel to the development of skills in technology adoption/absorption	✓				✓			
Human Res. in STI	42. Envisage support mechanisms that improve the living conditions or increase the status of young researchers	✓						✓	

# Activities undertaken by MoES, SRNSF & other Stakeholders

**Progress on Implementation  
of Particular  
Recommendations**

# 1 - STI system as a whole

## Recommendations:

- Unified Vision & Strategy; long term perspectives
- Fragmentation among stakeholders to be reduced/removal o barriers
- Improved planning to be introduced
- Definition of Priority Fields (with strong poles, outputs, fields cantered around promising economic sectors-niches)
- more targeted funding to be implemented

## Progress

- Active involvement of all stakeholders in Governmental AAWP preparation
- SRNSF is in the **process of strategy revision, evaluation of resources**, compliance with global trends & requirements
- Increased **collaboration between SRNSF, GITA, IPR National Centre** (MoU, joint participation in scientific events, open discussions, prep. Of joint call)
- **Transparent** procedures, more **interaction** with major beneficiaries: Universities, Research Centre and Institution, Targeted research Groups
- SRNSF is in the process of **mapping strong research groups** throughout various institutions (based on research productivity indicators (c, h indices), experience of international collaboration.

# 2 -Funding STI

Current funding (0.25 %of GDP) is very low

## Recommendations:

- To Increase core funding based on Key Performance Indicators
- To Increase Grant funding, but targeted for priority areas (additional ones)
- Introduce multiannual Grant Programmes with perspective of continuation
- To give Incentives For research-private sector cooperation, fundraising from private sector

## Progress

- Education & science declared as one of 4 Governmental priorities. It should be reflected in public funds
- SRNSF increased Research Grants funding by 20% in AR programme and by 40% in FR & DI
- SRNSF changed TOR in major funding schemes: taxes are not paid from grants/fellowships.
- New funding schemes are planned and prepared making focus on targeted research excellence, with high level of international collaboration and intra institutional cooperation
- AR call terms to be modified in cooperation with IPRNC and GITA

# SRNSF – One of the Major STI Funding Agency: Programmes, Reforms and Latest Developments

## 27 Programmes!

- Research projects (basic and applied research, collaborative research)
- International joint research projects (CNRS, CNR, TUBITAC, STCU)
- Long-term targeted projects in STEM (from 2017)
- Mobility of scientists and international collaboration (TG, CG, SS)
- Young scientists' development (YS, IG, MR, PhDF)
- Research and technology infrastructure development
- Science popularization (Research and innovative projects with participation of secondary school students, targeted small scale projects for science popularization)
- Promotion of Georgian Studies within international academic area (HE, OU)

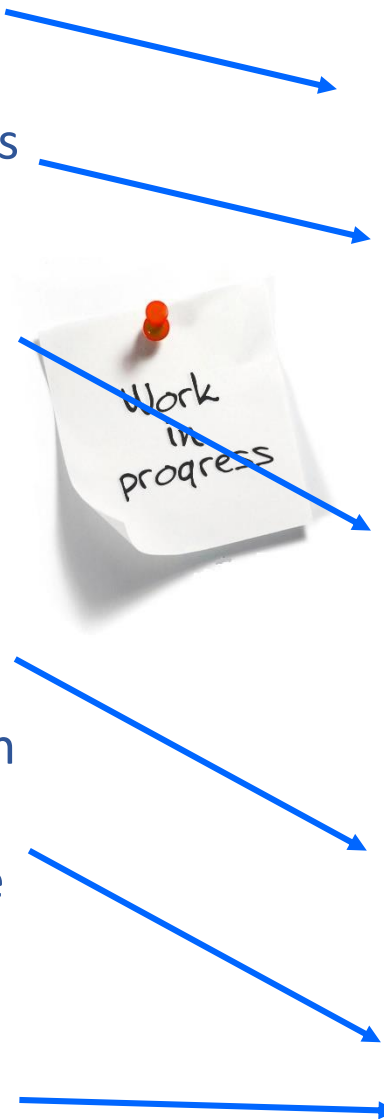

- **2015 Structural Changes**
- **2015-2016 New Programmes developed**
- **More Transparency & communication with Scientists**
- **Changes in Evaluation procedures and criteria**
- **Efficacy Evaluations**
- **New international partners**

# 3 - Integration of Research & Education

## Recommendations:

- Further improve Accreditation process
- Introduce Key Performance Indicators, assessment acc. International standards
- Secure KPI based adequate core funding, reduce dependence on students' fees
- Ensure compliance of local economic sectors' demand and academic programmes
- Overcome isolation of research centres & institutes from universities
- Provide mobility, better communication & collaboration
- Merged poles: constitute a competitive advantages
- Promote inter disciplinary
- Irrigate research centres with young researchers

## Progress:

- **MoES** initiated Law amendments Law on HE, Law on Sc. Technology dev. Law on dev. Of Quality of Education)
- **NCEQE** is supporting HE internationalisation, reviewing accreditation standard, criteria in line with EU quality standards
- **SRNSF** works on development of GEO research portal: evaluating science productivity of its grantees in different fields, mapping of strong resources by fields, research institutions/ centres
- **SRNSF** launched call for New PhD programmes, fostering RI & University collaboration
- New schemes & **increased funding** for **Post Docs, PhD & MA students**

# 4 – Human Resources in STI

**Problematic age structure, active involvement of young generation needed!**

## Recommendations:

- Strengthen grants for YS
- Provide return conditions for YS graduated abroad
- Introduce research activities in Accreditation process for universities
- Remove barriers Universities /research cent.
- Enhance social status& prestige, Sc. Popularisation in wider society

## Progress

- SRNSF introduced **new grants** for YS on all stages: MA, PhD, PostDocs
- SRNSF modified grant schemes, **requesting involvement of YRs** in FR, AR & DI projects
- EQE modified **standards with emphasis on research and education integration**
- Special trainings, forums, workshops are supported for **YS capacity building**
- MoES initiated Law amendments Law on HE, Law on Sc. Technology dev. Law on dev. Of Quality of Education)
- MoES new initiated-annual Sc. fest -broader community involvement
- SRNSF provides 3 programmes for Sc. popularisation, 2016 awards for scientists

# 5 - Internationalisation

**Statement: well developed 80% co publication rate, more donor driven**

## Recommendations:

- Improvement of coherence needed, in line with vision, strategy & national priorities
- Promotion of internationalisation of stakeholders/Universities. RCs
- Provide more active collaboration with compatriots

## Progress

- SRNSF -new IR strategy (work in progress)
- Defining **priority fields for international cooperation**, in line with H2020
- New **bilateral and multilat. cooperation schemes** (STCU, ISTC, Juelich UO, JSPS, TUBITAK)
- Involvement in **multilateral projects (EU framework programmes)**
- Regional **evaluation platform** creation
- **Outsourcing of evaluation: ORAU, CRDFG**
- **Cooperation with ESF, NSF & EU experts in Sc. Management**
- New **joint programmes and mobility schemes**
- Affiliation to **European Association for Quality Assurance in HE**. Initiating international experts in accreditation
- EQE's participation in **Bologna Follow-up Group**

# 6 - HORIZON 2020 Association

**29/04/2016 association Agreement Signed!  
Great Success but a challenge as well!!**

## Recommendations:

- Plan of action how to benefit from association should be developed: spearing of information, co-funding/rewarding, participation in H2020 governance, setting up Liason Office in Brussels, etc.)
- NCP system should be strengthened
- More participation in COST networking & capacity building activities

## Progress

- H2020 info days, web page
- SRNSF -ERC NCP in Georgia
- Contact points in major universities
- Special trainings for Ys and wider scientific community, conveyong some practical skills and sharing best experience from H2020 grantees
- Involvement in EU framework programme funded projects: IncoNet EaP!, Black Sea Horizon, Inco PLUS - supportive instruments for Georgian Scientists active involvement in H2020 programmes.

# H2020 Association Opportunities and Challenges

## Key messages

- The *Association* of Georgia to H2020 constitutes an *opportunity* for improving the STI system
- But it is also a *challenge*: a **systematic multi-level effort is necessary** in order to obtain the benefits from the Association

### **Creation of Well Functioning NCP Network is crucial!**

Grants' Management Units at HEIs and RCs

Intensive trainings/workshops on H2020 programmes and project writing and management is needed!

შოთა რუსთაველის ეროვნული  
სამეცნიერო ფონდი  
SHOTA RUSTAVELI NATIONAL  
SCIENCE FOUNDATION

## SRNSF vision and plans:

- New Programme for preparatory activities to **foster H2020 project writing and networking**
- *Supporting Georgian researchers' participation in Brokerage Events, Twinning Programmes (TG, IG, CG, SS, Multilateral projects)*
- *Strengthening cooperation with Diaspora (DI)*

# 7 – Innovation & Business Sector

Very low involvement & investment of private sector in research; Stagnant patenting activity; More focus is made on low-tech innovation rather than to knowledge-intensive.

Innovation high in political agenda with positive initiatives (GITA, Tech.Park etc.)

## Recommendations:

- Interaction among Priority fields of research and dynamic economic sectors is urgent!
- Involvement of business representatives in Advisory Boards
- To improve framework conditions (TTOs, start-up support, incentives to stimulate research demand, etc.)

## Progress

- Identification of **excellent clusters is in progress, in compliance with promising economic sectors**
- Prominent **Business Sector's representatives included in SRNSF AR evaluation committee (II phase)**
- **SRNSF – SAKPATENTI – GITA cooperation (AR )**
- **NC IPR – training, workshops, consultations for sc.s**
- **GITA's activities:**
  1. formation of **legal framework for the development of innovational activities**; The law on innovation has been prepared with the intensive consultations with public/private sector and international community's expertise-approved by the Government Cabinet, ratified by the Parliament and signed by the President of Georgia.
  2. **provision of infrastructure for innovations** (Technological Park, Fabrication Laboratories (FabLab), Innovation Laboratories (iLab), Business Incubators, BroadBand for All – High Speed Fiber optic internet, Accelerators etc.);
  3. **capacity building on entrepreneurship and innovational skills** (trainings, seminars, workshops, hackathons etc.);
  4. **promotion of entrepreneurship and development of innovative ideas by improving access to finance.**
    - the Government of Georgia has introduced 4 Point Plan of Economic reforms, significant part of which is 'StartUp Venture Finance'. One of the co-implementers of the plan is GITA.

# What is next?

## Still the most challenging issues

- **Unified vision, strategy and action plan**
- Thinking in terms of long-term perspectives, connection to economic impact
- Consolidation of finances
- More integrated & comprehensive dialogue is needed
- **Still 87 priorities?! \*RIC vision!**
- Mapping of resources is urgent!
- More international collaboration
- More **inter-institutional collaboration**
- **Identification of strong spots & clusters is crucial!**
- Fostering H2020 participation
- Focus on **inter disciplinarily**
- More integration of **research and education**
- Continuing **development of Ys**
- More action towards **SME-Research collaboration,**
- **incentives for business to invest in research.**
