[PROJECT] **EDENext - [Biology and control of vector-borne infections in Europe](#)**
Ref.: 261504
Start date: 2011-01-01 - End date: 2015-06-30
To address the call for proposals 'Biology and control of vector-borne infections in Europe' launched by the European Commission, we want to investigate the biological, ecological and epidemiological components of vector-borne diseases (VBD) introduction, emergence and spread...

Health in Times of Transition: Trends in Population Health and Health Policies in CIS Countries

- **Curatio International Foundation (CIF)**, is a not-for profit, non-governmental organization. It has implemented a large number of research projects and provided consultancy services to various organizations, agencies and governments in Georgia and other countries.
- **Georgian Opinion Research Business International (GORBI)** - market and independent opinion research organization. the organization maintains a solid reputation in Georgia and internationally because of its unmatched research standards and commitment to independence.

Georgian Partners – EECALink

Promotion and facilitation of international cooperation with Eastern European and Central Asian countries

Tbilisi State University

- The first-ever national university in the Caucasus was opened in 1918.
- TSU is one of the largest higher educational institutions. Today about 22 thousand students are undergoing studies at six faculties of University.

The project was aimed at identification of common research priorities of the European Union and Eastern European and Central Asian countries (EECA) and strengthening collaboration among them.

Georgian Partners – PsychCNVs

Copy number variations conferring risk of psychiatric disorders in children

Tbilisi State Medical University

- Tbilisi State Medical University – a Legal Entity of Public Law – is an autonomous higher education institution having the 80 years history since its foundation.
 - Five faculties and 58 departments
 - The objective of this study was to generate new knowledge on genetic variants conferring risk of psychiatric disorders in children and adolescents.
- 

Role in the Consortium

Coordinator

- Define your idea
- Find funding opportunities
- Write a proposal
- Find the partners

Partner

- Identify your skills
- Promote yourself
- Join a consortium
- Define your activity

How to find the right partners?

- Networking is fundamental to getting involved in EU funding
- There are many different ways to get started:
 - Find out who could be your potential partners
 - Become a H2020 Expert/Evaluator
 - Get to know the relevant National Contact Points
 - Attend Brokerage events
 - Participate in Cost actions

Who could be the potential partner?

- Identify **what has been previously funded** in your area
 - Use CORDIS EU project search facility
http://cordis.europa.eu/projects/home_en.html
 - Visit the EU project websites
- Identify the people you want to partner with

Horizon 2020

Work Programme 2016 - 2017

8. Health, demographic change and well-being

Important notice on the second Horizon 2020 Work Programme

This Work Programme covers 2016 and 2017. The parts of the Work Programme that relate to 2017 are provided at this stage on an indicative basis. Such Work Programme parts will be decided during 2016.

(European Commission Decision C(2016)1349 of 9 March 2016)

*HORIZON 2020 - Work Programme 2016 - 2017
Health, demographic change and well-being*

Table of contents

Introduction	5
Call - Personalised Medicine	7
1.1 Understanding health, well-being and disease.....	7
SC1-PM-01-2016: Multi omics for personalised therapies addressing diseases of the immune system.....	7
SC1-PM-02-2017: New concepts in patient stratification	8
SC1-PM-03-2017: Diagnostic characterisation of rare diseases.....	9
SC1-PM-04-2016: Networking and optimising the use of population and patient cohorts at EU level.....	10
1.2. Preventing disease	12
SC1-PM-05-2016: The European Human Biomonitoring Initiative.....	12
SC1-PM-06-2016: Vaccine development for malaria and/or neglected infectious diseases	15
SC1-PM-07-2017: Promoting mental health and well-being in the young.....	17
1.3 Treating and managing diseases	18
SC1-PM-08-2017: New therapies for rare diseases	19
SC1-PM-09-2016: New therapies for chronic diseases	20
SC1-PM-10-2017: Comparing the effectiveness of existing healthcare interventions in the adult population.....	21
SC1-PM-11-2016-2017: Clinical research on regenerative medicine	22
SC1-PM-22-2016: Addressing the urgent research gaps against the Zika virus and other emerging threats in Latin America.....	23
1.4 Active ageing and self-management of health	26
SC1-PM-12-2016: PCP - eHealth innovation in empowering the patient	26
SC1-PM-13-2016: PPI for deployment and scaling up of ICT solutions for active and healthy ageing	28
SC1-PM-14-2016: EU-Japan cooperation on Novel ICT Robotics based solutions for active and healthy ageing at home or in care facilities	30
SC1-PM-15-2017: Personalised coaching for well-being and care of people as they age... 32	
1.5 Methods and data	34
SC1-PM-16-2017: In-silico trials for developing and assessing biomedical products	34
SC1-PM-17-2017: Personalised computer models and in-silico systems for well-being.... 35	
SC1-PM-18-2016: Big Data supporting Public Health policies	37
SC1-PM-19-2017: PPI for uptake of standards for the exchange of digitalised healthcare	

Horizon 2020-Personalised Medicine-Topics 2017

- New concepts in patient stratification
 - Diagnostic characterisation of rare diseases
 - Promoting mental health and well-being in the young
 - New therapies for rare diseases
 - Comparing the effectiveness of existing healthcare interventions in the adult population
 - Clinical research on regenerative medicine
 - Personalised coaching for well-being and care of people as they age
- 

Horizon 2020-Personalised Medicine-Topics 2017

- PPI for uptake of standards for the exchange of digitalised healthcare records
 - Development of new methods and measures for improved economic evaluation and efficiency measures in the health sector
 - Implementing the Strategic Research Agenda on Personalised Medicine
 - Global Alliance for Chronic Diseases (GACD); Prevention and Management of Mental Disorders
 - Actions to bridge the divide in European health research and innovation
- 

Call - Personalised Medicine

H2020-SC1-2016-2017

I.1 UNDERSTANDING HEALTH, WELL-BEING AND DISEASE

Proposals are invited against the following topic(s):

SC1-PM-01-2016: Multi omics for personalised therapies addressing diseases of the immune system

Specific Challenge: Despite much progress in 'omics' and epidemiological research in recent years, the knowledge on the combined role of genetic and non-genetic factors in health and disease is still limited, thus hampering the full development potential of personalised medicine⁸.

There is increasing evidence that interactions with the environment, as reflected in genome-epigenome-proteome-metabolome-microbiome crosstalk, play an important role in disease development and progression. International initiatives such as the International Cancer Genome Consortium (ICGC), the International Human Epigenome Consortium (IHEC) and the International Human Microbiome Consortium have generated high quality comprehensive large scale data catalogues and maps. The challenge is to build on the existing high quality data deposited in relevant databases (e.g. but not limited to: <http://epigenomesportal.ca/ihec/>, <http://docs.icgc.org/data-portal/>) and combine these data and knowledge with lifestyle and environmental data, thus accelerating the translation into novel targeted or personalized interventions. These objectives cannot be accomplished on an individual country level which calls for broad transnational collaboration.

Scope: The scope of this topic is to integrate and use high quality genome, epigenome, proteome, metabolome, microbiome data produced by large scale international initiatives with innovative imaging, functional, structural and lifestyle/environmental data, and combine these with disease-oriented functional analysis to contribute to the understanding of health and disease with the final objective of selecting relevant biomarkers for clinical validation that will lead to the development of new targeted therapies for diseases of the immune system. Proposals must build on data from IHEC and, as appropriate, on data from other international initiatives. Proposals should address relevant ethical implications, take into account sex and gender differences and include a section on research data management. International

⁸ Personalised medicine refers to a medical model using characterization of individuals' phenotypes and genotypes (e.g. molecular profiling, medical imaging, lifestyle data) for tailoring the right therapeutic strategy for the right person at the right time, and/or to determine the predisposition to disease and/or to deliver timely and targeted prevention. The term "personalised medicine" is used throughout this Work Programme with this definition in mind.

cooperation is requested. Proposals addressing rare diseases of the immune system are not in scope of this action.

The Commission considers that proposals requesting a contribution from the EU of between EUR 12 and 15 million would allow this specific challenge to be addressed appropriately. Nonetheless, this does not preclude submission and selection of proposals requesting other amounts.

Expected Impact:

- Translate big data and basic research results into clinical applications.
- Contribute to exploiting data from IHEC and, as appropriate, data from other international initiatives.
- Identify and select new biomarkers for clinical validation in stratified patient populations
- Develop new targeted therapies for diseases of the immune system with high prevalence.
- In line with the Union's strategy for international cooperation in research and innovation proposals should create strategic synergies between scientists across disciplines, sectors and around the globe.

Type of Action: Research and Innovation action

NMP TeAm 3

1. Network of NCP in Poland

National Contact Point for:

Horizon 2020,

Euratom-Fission,

IMI2 (Innovative Medicines Initiative)

15 years experience

Coordinator of NCP Network

sieć k₁))k

Coordinator of Euraxess Network

Main goal: *to support the participation of Polish research institutions, enterprises and organisations in the Framework Programmes of the EU.*

NCP System in Poland

- Overall coordination of NCP is assigned to Ministry of Science and Higher Education (**MSHE**)
- Network of NCP-PL is **co-financed** by MSHE
- NCPs host organization - **IPPT PAN** (Institute for Fundamental Technological Research PAS)
- The NCPs individually nominated by MSHE to perform one or more of the NCP functions (full time), **38 registered NCPs** by the Commission
- NCP-PL actively participate in EU-funded **NCP network projects**
- Experts to **PC H2020**
- Based on “Minimum standards and **Guiding principles** for setting up systems of National Contact Points under Horizon 2020”, EC

New NCP strategy for Horizon H2020

- **One stop shop - standardized services**
- **Mentoring activities** - focus on **client's needs** and quality of services
- **Identification best scientists/research teams**
- Optimal use of NCP expert resources
- **Close cooperation** with MSHE and other stakeholders
- strong connection with networks at national level: Regional Contact Points, Local and Thematic Contact Points and EEN
- Active **promotion** of Horizon H2020 i **international mobility** – Polish Portal for Horizont 2020 and EURAXESS
- Special focus on the **new generation** of scientists

Offer of the NCP in Poland

Our mission is to reinforce the position of Polish science and innovation on the international arena.

We promote, encourage, help

Our free of charge services:

Infodays, brokerage events, workshops, conferences

Partner search

Mentoring

Support on legal & financial issues

Consultation, pre-screening of proposals

Support for incoming researchers

NCP Core functions

- **Informing, awareness raising**
- **Assisting, advising and training**
- **Signposting and cooperation**

Source: “Minimum standards and Guiding principles for setting up systems of National Contact Points (NCP systems) under Horizon 2020”, EC

Informing, awareness raising

- **National Portal for H2020** - general and specific information on H2020, event calendar, news
- **National EURAXESS Portal**
- Organising **information and promotional activities** – in liaison with the Commission services (e.g. **infodays**, **BEs** conferences, newsletters, presentations, publications etc.)
- Providing information on other European programmes in the field of R&I such as **COSME**, **Eureka**, **COST** and establishing links with the respective specialist support services.

POLAND WELCOMES RESEARCHERS

Welcome to EURAXESS Poland, a part of the European EURAXESS Services network across Europe, which is a joint initiative of the European Commission and the countries participating in the European Union's Framework Programmes for Research.

EURAXESS Poland Portal is an information point for internationally mobile researchers wishing to come to Poland or intending to pursue scientific career abroad.

The Polish EURAXESS Services network provides free and personalised assistance to mobile researchers and their families in various matters relating to their professional and daily life, as is stated in the [EURAXESS Services Commitment](#).

Assisting and advising

- **Front Office/ Helpdesk** – one stop shop - no wrong door
- **Consultations** (phone, e-mail, individual)
 - Advise on **administrative procedures, rules and financial/legal issues**
 - Identifying funding opportunities
 - Assisting in **partner search activities**
 - **Pre-screening** of proposals
- **Mentoring activities** - targeted information and advice

Trainings/workshops

- Organising trainings on H2020 for **intermediaries and multipliers** to ensure high quality of advice.
- Organising trainings/workshops for:
 - **specific target groups** (SMEs, universities, business organisations etc.)
 - general information on opportunities under H2020
 - SME instrument - preparation of succesful proposal
 - on **specific topics**
 - financial and legal aspects
 - Participant Portal and other EC services
 - preparation of succesful proposal (ERC/MSCA/SCs)

Signposting and cooperation

- Signposting to **other business support network services** (e.g. **EEN, EIB** etc.)
- Signposting to **national funding services and programmes** (e.g. **NCBR, NCN, FNP, PARP** etc.)
 - NCBR - The National Centre for Research and Development
 - NCN - National Science Centre
 - FNP - The Foundation for Polish Science
 - PARP - The Polish Agency for Enterprise Development

NCP expert's roles and activities

- MSHE is in charge of all of the specific programme configurations activities
- Experts in all **Horizon 2020 Programme Committees** - active participation in the meetings
- Contributing to **shaping content priorities** in the relevant Work Programmes;
- **Opinions** on EU programming documents
- Cooperation with the expert **reference groups**
- Expertise also gained on the ground by our **own participation** in FP projects (mainly NCP networks and INCO projects).

3. Support from NCP projects

Continuation of NMP TeAm 1 & 2

The objective of NMP TeAm 3 is to: facilitate trans-national co-operation between NCPs within the Industrial leadership Part with a view to identifying and sharing good practices and raising the general standard of support by the NMP NCPs to programme applicants.

Activities for NMP NCPs

Training of NCPs

- **training seminars with 80 NCPs**

For newly appointed NCPs (“How to prepare a good proposal”, “Specific issues (Cost, Gender)”

- **webinars organised for all NMP NCPs**

Brokering

- **The Partner Search Facility** updated for the WP 2016-2017:

(The PSF has **1059** registered **users** from 74 countries

For the WP 2016-2017 there were **265 profiles** (228 offers, 37 searches)

Information & Training

- **virtual events for our clients** with **1557 registrations** from 24 countries

Staff exchanges

- **Have slots available & will pay for tickets & accommodation**
- **Excellent opportunity to visit experienced colleagues and exchange practices, promote your clients abroad**

Assist clients on the spot

28 NMP NCPs (**11 non beneficiaries**) assisted clients through the NMP TeAm 3 stand in NMP related events: EuroNanoForum, KETS Brokerage, PPP Info Day, Manufacture

Available slots for NMP NCPs with funding for tickets & accommodation
